

AMINONews® – 2nd Edition 2011 is now available. Evonik’s customer magazine for the feed and livestock production industries.

The Health & Nutrition Business Unit of Evonik Industries, Essen (Germany), has now published the latest edition of its customer magazine AMINONews® for the compound feed and livestock production industries.

In that issue our aqua specialist Dr. Andreas Lemme addresses the topic “Availability and effectiveness of free amino acids in aquaculture” for different fish species and shrimps.

The other two articles are:

- “Expect the best – the new AMINODat® 4.0”, by Dr Mark Redshaw
- “Optimum dietary tryptophan to lysine ratio for gestating and lactating sows”, by Dr John Htoo

Featured as “Research Highlights”, the magazine also reports on current developments and latest scientific publications on amino acids for animal nutrition.

Evonik is the only company in the world that produces and markets all four essential amino acids used in advanced animal nutrition: MetAmino® (DL-Methionine), Biolys® (L-Lysine), ThreAmino® (L-Threonine) and TrypAmino® (L-Tryptophan). The company markets innovative products and services in more than one hundred

countries and thus makes a valuable contribution to the cost-efficiency of its customers and to healthy and environment-friendly animal nutrition.

Company information

Evonik, the creative industrial group from Germany, is one of the world leaders in specialty chemicals. Its activities focus on the key megatrends health and nutrition, resource efficiency and globalization. In 2010 about 80 percent of the Group's chemicals sales came from activities where it ranks among the market leaders. Evonik benefits specifically from its innovative prowess and integrated technology platforms.

Evonik is active in over 100 countries around the world. In fiscal 2010 more than 34,000 employees generated sales of around €13.3 billion and an operating profit (EBITDA) of about €2.4 billion.
