

BENEFITS

Ecobiol® Fizz is applied directly in water lines on farms.

- Supports establishment of intestinal microbiota when feed intake is low
- Delivers fast supply of microbiota in stressful periods
- Flexible usage of probiotics, regardless of current feed formulation
- Easy application and handling of highly concentrated product (without stirring)
- No sugar-based carrier that supports the formation of biofilm in the water tanks and drinking lines
- Homogenous distribution of spores in the stock solution (without stirring)
- Compatible with other ingredients and various water conditions

BECAUSE IT'S ABOUT

MORE

Ecobiol® Fizz is water-soluble – and much more.

Ecobiol® Fizz

CHALLENGE

Gut health and its related challenges have become one of the most important parameters for profitable and sustainable poultry production. In the transition towards antibiotic-free production, maintaining a balanced intestinal microbiota is a demanding and complex task.

When birds are exposed to stressors, such as feed changes, pathogens or vaccinations, diseases can occur easily and overall animal well-being is put at risk. Often, medication can have a negative effect on the microbial balance and gastrointestinal tract, creating a requirement for natural alternatives, such as probiotics.

Tackling these specific periods and ensuring a stable balance of the intestinal microbiota requires a reliable, rapid, and convenient solution that counters the effects of stressors to prevent economic losses.

SOLUTION

Ecobiol® Fizz is an effervescent tablet for water line systems and consists of our natural, fast-growing *Bacillus amyloliquefaciens*.

The soluble tablet delivers *Bacillus amyloliquefaciens* fast and easy to counteract stressful periods. Continuously applied it supports the overall animal well-being and sustainable antibiotic-free production.

Ecobiol® Fizz easy-to-use is a highly efficient water soluble-probiotics for poultry farming, providing better efficacy to the flock consistently and limiting biofilm formation.

WHAT'S IN IT FOR YOU

- Fast, easy, and convenient delivery of product to counteract quickly (on the effects of stressors)
- Maintains well-being and overall health status of broilers in challenges faced throughout the production cycle
- Contributes to a sustainable and AGP-free poultry production
- Finally, improves livestock performance and increases ROI

Visit our website or talk to your gut health expert at Evonik to find out what more Ecobiol® Fizz can do for you.
